

**Most successful Spanish
entity in the Clean
Hydrogen JU.
34 projects, coordinated
10 of them**

DISCOVER MORE

**We are a private , non-profit, research center, created to
promote the use of hydrogen as an energy vector.**

The initiative was promoted by the Government of Aragon in 2003 with the support of the Aragonese industry and entities from different sectors of activity. Today we are supported by +90 members in our Board of Trustees.
